THE TUNKEL BORROR.

The investigation of the Fourth Avenu socident which happened near the same pot on September 29d, 1889, was almost as ible as that of Friday, and although the ne was placed nothing came of it. Here

s find that the How York Contral and Hudson r Baltron Company is guilty of gross and oriesregilipmes in fating to provide in said tunneltiant appliances for the signalling of trains, in fating to provide a sufficient number of conson to carry out such presentions as the raise for to be taken in such omergencies, and is since sequentiate for the deaths aforested, a cannot reducin from condemning in the against of these route a miptoben concesse, the directed to the securing of large dividenceres and dispenses with the simplest aganties reself and no means adapted for lighting tunnels that its lineary as reput transit reachs, which in infigurent is consulted to the security of travel.

We find, on personal extentionties, that the ventilation of regid treast tennels is deficient, and personneed that openings to made more frequent to the main treat, and these that are now made be unlarged as much as practicable. With this warning a second accident or

ed, with a still greater loss of life. This time let there be punished whoever

re are a few facts about the Fourth ane Tunnel and its ownership by the New York Central Railroad Company that the public should be informed of. t, the New York Central Railroad

aps large profits through the use of The city contributed something like 8,000,000, half of the expense of construc-

tion of the tunnel, which only benefits the New York Central Railroad. The New York, New Haven and Hartallroad whose trains col lided on Frisy pays big rent to the New York Central

ing these facts, saide from the n of humanity, if it is the saving of that there should be no crack in it. ase that keeps the tunnel dark and ntilated (and what other reason can

here bot), there is criminality in the matter mere presentment. Let it indict the filty ones, who must be brought to trial.

In the meanwhile light up the tunnel Every plan for underground rapid transit presented for the consideration of the Rapid Francit Commissioners, and there are several excellent ones, provides that their tun-nels shall be lighted by electricity and ghly ventilated.

Then light and ventilate the Fourth Avenue Tunnel before there is another dis-

ing the wall of the Fifth Avenue Theatr orday the wall suddenly began t sway and then fell with a crash, filling Twenty-eighth street from ourb to ourb with a mound of debris.

ed. It is characteristic of the tempe iples of the American citizen that over the accident, if no lives are lost juries inflicted on human beings, he has hardly a word to say. One reas biless is because the American citizen has time to deal only with facts and not peculation. Something happens and some-ody is killed. It was obviously wrong, and there is an indignant howl. Some-thing happens which of its nature might have itiled a dosen people, and the only thought is that it was good lack. What is se of getting into a farment based upon

This is radically wrong. It is puerile and be criminality leasened because some calculated to do great injury by a ed chance does bodily harm to none?

There was ignorance, at least, in the coldent yesterday. The intention was to aske the wall tumble in, not out. Is it ly's fault that it fell the wrong way, that it creshed into a street in full use Whoever was responsible for the demolition of that wall to subject to grave censure for fall. It should have been guarde against so that it could not have occurre

BRAVO, WARRINGTON.

Mr. Washington, of Tennessee, has hown himself to be made of good stuff or a member of the House of Representalives. A Representative who represents is what is desired in a legislative body. But he should represent that for which he is there and for which alone he should exist. Natural right and funtion should be stronger.

mails. This Summer the Postmaster of New York can send off the European mai Tuesday, Wednesday, Thursday and Saturday of each week. Arrangements for sort sequently the mail facilities between country and Europe are increased in ing the mall in transit have been made a way that is very satisfactory.

Miss WILLARD, in her address to the brainy women at Washington, took occa-sion to object to the word "female" and ored Mr. CLEVELAND for having characerised ANNA DICKINSON by this opprobrious term. Miss WILLARD is right. Usage and sentiment are the dies which stamp word with its current value, and they attach an offensive force to the word "female" except in a narrow and restricted use. "Lady" and "female" have both fallen somewhat under the ban, but woman retains its proud force. The great American She is a noble woman. She is unworthy of being styled a "female," and if she is a

The skin-grafting industry suggests a med horror, which begins to-day, should problem which has received a solution in a recent example. The problem was: If a negro were to be gradually despoted of his own dusky cuticle and the fair skin of a white grafted upon him, could he not pose as a white? There might be difficulty in getting so much white skin for such a purpose, but in a case where a section of negro hide was grafted on a white man it grew white. If the re-

verse holds the problem is solved. The negro cannot become even in appearance their sex by day and dream of a vote by night must regard the career of Mrs. Digos, of Kansas, with a spasm of de-Mrs. Dices, of Kansas, has East Forty-fourth street. gathered her skirts about her and descended into the political arena. She frames bills, guides legislators, and holds an admiring clientele of her own sex in admirable subserviency. Hoop-is for Mrs. Dioos, of Kansas. Children's Aid Society's Busy Little Factory.

Boys' Fed and Lodged While Learning the Useful Trade.

lady, to be on the right side, call her a genare thousands in New York who are not even aware of its existence.

One cold day in 1882 the tide of misfor tune swept an unfortunate boy into the Children's Aid Society. He had been run in such a lavishly guancial way. over by a freight train and both legs severed from his body. He had a home in Riverdale, but there was a stepmother in charge, and when Peter was able to hobble about he made up his mind to "out and run."

He got to the city in some way ; hid, slept and starved in wagons and areas, and finally was advised by a kindly disposed and sympathetic officer to try the Children's Aid Society. He was given all he could eat and drink,

with a word of advice and a letter of introduction to Mr. William H. Mathews, Superintendent of the lodging house, 247 Mr. Mathews searched far and wide and

high and low for suitable employment for the boy, who was as strong in his arms as a young lion and perfectly willing to work. But nobody wanted him. "Crippled, you see, and would only be in the way," they It was no use. Mr. Mathews concluded

He must be cared for by the Society, and at | balls are there to trolle and laugh. They don't Janesville miners after nineteen days of once, for Peter was very human and proisposed to be vicious. His salvation depended upon employ-

Basket-making was considered as a from the Valley of Beath. What joy this of rope and doormats and brushes, and the An order was sent to Philadelphia for

> supply of Tampico bristles and horsehair was purchased. A carpenter improvised a shop, and a boss was hired to take charge of it and teach Peter the brush trade. The pupil did credit to his tutor and

> knew it all," to use his own words, " inide of two weeks." Other boys, cruelly handicapped, entered the shop, and before the first month's report

was out there were thirty at the beach. While he remained, Peter was king of the factory. He grew strong and hardy ceived all the clothing he needed and was au

soon able to pay his own way.

It was most pitiable to see the poor fellow going about on his hands and stumps, trains are run. This is a step in the right but he preferred this mode of locomotion to the use of his "timbers," and the officer indulged him. Success or heredity, or both influences.

turned his head. He took to drink, became ungovernable and was suspended. He retaliated by getting out in the street with a pocketful of stones and riddling the win dows.

Poor Peter feared pursuit and prosection, but the Society was not disposed to add to the hardship of his life and nothing more was ever heard or seen of the first apfor Crippled Boys.

The object of the factory is to give all Louis Globe Den disabled boys an opportunity to become self-supporting. While they are learning the trade they are lodged, boarded and clothed free of charge and paid 50 cents a

When proficient they are paid by the piece and paid all they earn at the highest rates. Any boy who can use his hand can make \$3 a week, and many carn \$5.50. They begin at 7 A. M. and work till

P. M., with an hour rest and a free lunch at After dinner each boy is compelled to at

tend night school one hour, from Octobe till March. They are allowed to be out any evening till 10.30 o'clock and Saturday Each boy nave his way-five cents for

lodgings and five cents per meal. Instead of a system of fines for late hours the brushmakers are charged extra for lodgings. Those who come in after 10.80 o'clock during the six days of the week must pay seven cents for lodgings; on Saturday arare locked.

The work done by these disabled boys is varied and of superior quality. They make scrubs," with and without handles; window, shoe and stove brushes; daubers, shiners and dusters; pope's eyes and pope's heads; hearth and floor brooms silver, "dander" and printer's lye brushes These goods are sold to private families and firms, to street venders and various institutions, the Hebrew Orphan Asylum being the best customer of the factory.

An average of 100 brushes a week are turned out by each boy. There are benches for thirty, but just now only eight are at These poor little fellows are not long-

lived. Many of them die of consumption, and pneumonia is both common and fatal among them. The majority are Irish children, friendless, helpicas and homeless. Some come from Randall's Island Hos

JENNIE HILL.

boy, any hapless fellow who finds him

versity blows over.

An explosive little creature known as Jennie Hill, all suppowder and dynamite and red pepper, made her first appearance at Tony Pas-tor's last night in an almost Patti-esque and Bernhardt-istic way. This little Jinnis 'Ill, of Although the brush factory for crippled the London music balls, was nearly lost in boys was established nine years ago, there perfect inundation of flowers that filled the stage. Hhe modestly remarked that in all her anything like it. And I believe ber. The enthu clasm of audiences at the Canterbury, the Pay, and the Aquarium does not express itself Jennie is an odd little being, very suggestiv

of the pictures of the Marchioness in Dickens's "Old Curiosity Shop." She conjured up in my mind all sorts of souvenirs of Sally Brass and Dick Swiveller, and Daniel Quilt, and Mrs. Jellaby. She is clever, too, with a bewildering amount of magnetism that chained the attention of the audience to songs so hid-den beneath a mountain of English slang that they were almost unintetligible to the uninit

No more striking example of personal magnotism and its value can be indicated than Miss Jennie Hill. She is truly a "vital spark," as her friends in England call her. Her song of the London coffee-house girl was well worth bearing, and a more artistic "make-up" cou hardly be imagined. Such carefully studied rags would make the fortune of a melodrama or a local picture. The songs, "On the Continuous" and "'Arry" were also highly

Miss Hill did a sentimental sketch called "Masks and Faces," which was rather irri-tating. It is strange that English and American variety people should hanker so strongly for mandlin sentiments. These good toks never will remember that andiences in variet care a button about sentiment and that sort of thing. Yet they get hearsely uttered edes to

of a variety entertainment. I cannot under-stand it. It seems incredible that these rough couldn't, not what she would like to have and tumble people should want to be taken au done, not what she might, perhaps, have done hundred gross of bored brush-backs, and a serioux. I suppose they are actuated by the not what her neighbors no do same ideas that prompt the giddy maidenette ought to have done; simply what she could to try her luck at Juliet and Marguerite Gautier. I did not like Jennie Hill's "Masks and As long as there is such a verdiot as that blow Faces"—anything but sentiment at Tony Pastor's. I also besides our own." At the close of her performance she made a

cute little speech, and declared that she al-ready began to understand her audience and as to closely resemble pearl. could see that she had features in her reper toire that would suit it better than those she presented last night. Then she thanked Tony, after which Tony came out and tanked Jen-by the Hindoos, was presented to the Prince after which Tony came out and tanked Jen-by the Hindoos, was presented to the Prince of Wales. The fan of Queen. Theodolinda. was a plucky little man, an ! Tony asserted under the kindly influence of the House, re- that Jennie was a clever little woman. Jennie vation in the treasury of the Cathedral of becquently shook Tony's hand, and Tony Monna. A fan of celebrity in France was replied by bowing to Jennie.

Marguerite Cline was there, with Mrs. Fiyan and McCloskey. Marguerite was in the sweetest of tempers and a manye satin dress. Her beautifully pure contraite tones rang forth, bell-like, in that touching ode to the obdurate landlady, who wouldn't let her in. Tears came Rather. Pertinent? Hardly. to my eyes as I listened to her. Oh! I wish didn't like Marguerite so dangerously much.

YOUR NAME BY MAGIC.

Simple Device That Will Reveal Any Number of Secrets.

By use of the table given below you can prentice of the New York Brush Factory providing the rules below the letter dia- scrubbed the floor, and worked hard on her

to know inform you in which of the upright olumns the first letter of the name is contained. If it is found in but one column it is the top letter; if it occurs in more than ne column it is found by adding the alphabetical numbers of the top letters of the columns in which it is to be found, the sum eing the number of letters sought.

outlined above, the whole word or name may be plainly spelled out. Take the word Jane, for example. J is

found in two columns beginning with B and H, which are the second and eighth infants' dresses that open in front, which letters down the alphabet; their sum is fashion was first started in London, and is rivals after 10.30 pay eight cents; those ten, and the tenth letter down the alphabet after 11 pay nine cents, and at 12 the doors is J, the letter sought. The next letter, A, presses any mother. The dresses and skirts appears in but one column, the first where in front instead or in the back, which are the second, fourth and eighth letters of the alphabet; added they give the fourteenth, or N, and so on. THE PERFECT MAN.

Rules of Measurement Used by Greek

Sculptors, From the crown to the nape of the eck is one-twelfth the stature of a perfectly formed man, says the St. Louis

The hand from the wrist to the end of the middle finger is one-tenth of the health seckers. Pinely-woven Shelland total height of a man of perfect propor-

A man of good proportions is as tall as the distance between the tips of his fingers when both arms are extended to

fingers when both arms are extended to full length.

The face from the highest point of the forehead, where the hair begins, to the end of the chin is one-tenth of the whole stature of a man of perfect mould.

If the face from the roots of the hair to the chin be divided into three equal parts the first division determines the place where the eyebrows should meet, the second the opening of the nostrils, if the man be perfect in form.

The proportions of the human figure are six times the length of the right foot. Whether the form is slender or plump the rule holds good on an average. Any deviation from the rule is a departure from the beauty of proportion. It is claimed that the Greeks made all their statues according to this rule.
